

The Bird Report for 1978 has been compiled from the Log-book and here are some of the observers who have made observations in it.

D, ADAMS	J. HIGH
Mr. and Mrs. C. C. BAILLIE	Mr. and Mrs. JENKINS
R. W. BRITTON	D. KENTELL
D. BRITTON	M. NORTH
R. J. and Mrs. M. CAMPEY	S. OWEN
M. DARLASTON	Mr. and Mrs. M. ROGERS
M. and S. DAVIES	S. SUTCLIFFE
	A. M. TAYLOR

DOMESTIC AND FERAL STOCK 1978

Goats. At least eleven were counted in early December.
Soay Sheep. The largest number seen on one day was 26 on 10th November.
Deer. Only five were seen at one time and the total is certainly less than 20.
Rabbits. Numerous and I think about 7 to 8,000.
One Bull, 24 cows, two heifers and 19 calves in all.
Sheep. There are 12 rams, 350 ewes, 80 lambs and 20 others.
Ponies. One stallion, 10 mares and 8 foals in all.

JOHN OGILVIE.

MICK ROGERS

We were all very sad when Mick and Win Rogers announced that they were leaving Lundy. Quite apart from their personal contributions as Lundy residents, Mick looked after the Field Society interests on Lundy with skill and great devotion during some difficult times. He kept the ornithological record meticulously and effectively maintained a watching brief on our behalf. We are much indebted to him for all his hard work for the Society and for the fact that he was a volunteer. Our loss is Portland's gain—we wish them both success and happiness in their new appointment and hope they will come back often.
