

### OBITUARY: DR H.C. DAWKINS

It was with considerable regret that we learned of the death of Henry Colyear Dawkins, one of our vice-presidents, on the 4th May 1992 at the age of 71.

A noted forester and ecologist, who later became a Fellow of St. John's College, Oxford, Colyear joined the Field Society in 1949. In 1969 he became a committee member and, in the following year, our Chairman, a post he filled until 1973 when he became a vice-president.

Colyear Dawkins was a wise, able and valued member, always willing to give advice and help; he is missed by all his friends.

P.B.F.C.
