

## LIBRARY NOTES

We are very grateful that Grant Sherman has been kind enough to take on the supervision of the library for us. He is the keyholder, and will also give you the book for recording your loans (and their return). Usually one goes into the Tavern for refreshment of the liquid kind but while there, do take time to investigate what the library has to offer members. We think most aspects are represented, but do let the committee know if we have missed something you would have liked to find there, particularly with regard to reference books.

Please do NOT take out books on behalf of non-members. We suggest you provide those interested with a membership application instead. Finally, have you had a look at some of the less obvious items in the library? Do give it a bit of time for worthwhile investigation.
