

LFS LIBRARY – AN UPDATE

The Lundy Field Society library is housed in the Tavern and is a resource provided for members' use only. The library is kept locked and the key can be obtained from the bar. Considerable work has been done in recent years to update the stock and the Society has invested in a variety of Lundy books and key guides for natural history.

Some books will supplement the general identification guides available to the public in the Tavern library, while others are key reference texts in areas of research that the LFS encourages and supports. All are available for loan during visits to the island and a book is provided for recording loans. To help the Honorary Librarian monitor library usage, please use this book to note which books you use.

An inventory of the library at April 2012 is given on the following pages.

Recommendations for new books are welcomed.

MICHAEL WILLIAMS
Honorary Librarian
